HOW TO USE THIS LIST

Explore words through their meanings

Read each word with its definition and example. Similar and opposite words can help you compare meanings, but they are not interchangeable in every sentence. This is an original practice list, not a list of words guaranteed to appear in a local entrance test.

The three tiers

Foundation (106)
A starting group for this list. Choose words your child wants help with; the label is an editorial guide, not an age standard or exam prediction.

Strong (101)
A further group of words and meanings to explore in sentences. The label does not indicate how often a word appears in an entrance test.

Stretch (47)
Some less familiar words for additional reading and discussion. Use them when helpful, without treating the tier as a measure of a child's ability.

An optional practice routine

Read
Choose a few useful words. Read their meanings and examples together.

Explain
Try explaining a meaning without looking, then check the definition.

Use
Write a new sentence and discuss whether it shows the intended meaning.

Revisit
Return to unfamiliar words when helpful. There is no required schedule or target time.

The tick box and the labels

Use the tick box as a family note about words you have practised, not as an assessment of mastery. 8 words carry a KS2 spelling label: they are on the national curriculum statutory spelling lists for Years 3 to 4 or Years 5 to 6, as published for schools in England. A spelling label is not an individual attainment judgement.
